

Volunteer Screening Process

There are several steps that a new volunteer must take. These steps are essential in ensuring that they are properly screened and trained before beginning to volunteer in a school. Volunteers can come to the Minneapolis Public Schools two different ways: through the district's central VolunteerMPS office, or through specific schools.

In order to retain volunteers it is very important that we complete their placement within two weeks of the orientation session they attend. Time is of the essence. If you are contacted by VolunteerMPS regarding placing a volunteer, let us know immediately if you can take the volunteer. The whole volunteer intake process should take no more than two weeks.
