Volunteer Recruitment Websites

You can find volunteers to fill specific positions at your school or site by setting up an account with an online recruitment website.

The websites listed below are both free and easy-to-use. Each website gives you the ability to write a description with precise information about the role you need filled (this description can include an explanation of activities, specific time period, necessary skills, and more). These websites take the information you provide and post them in a visible location for potential volunteers to discover.
